Our Commitment

Our Journey began with a simple commitment – to help organisations and businesses create value and achieve their objectives or set goals, by minimising threats and maximising opportunities on their day to day activities or corporate performance.

The result of our approach is that within our 10 years of operation, we have emerged as the leading provider of Strategic, Risk and Transformational Change Management Solutions and Services in the nation, with a satisfied clientele that is rapidly expanding to other African countries.

Our Competitive Advantage

We are able to arm organizations' leadership and staff with new set of tools to run efficient operations and maintain focus on strategic direction. We provide practical working strategies to strengthen businesses as well as improve market shares and profit margin.

Our Human Capital Development Uniqueness

- We have both local and international workshops and trainers
- Our certificates are approved and recognized internationally
- We support our trainees with 1month complimentary mentorship

Our Clients

Our clients are an integral part of our existence and the Conrad Clark family. We have consistently supported organisations, communities and nations with much-needed risk and performance management solutions required to thrive. Every business has its set objectives and goals and at Conrad Clark, the desire to surpass those expectations propels us to go above and beyond the call of duty for our clients.

Some comments from our clients

"Outstanding work in breaking down complex matters into small manageable chewable bits." - **Dangote Industries Ltd**

"This training is one of the best training organized so far by the NSE. It is full of content, educating, realistic and interactive. It is a well-delivered workshop ... look forward to similar training." - **Nigerian Stock Exchange**

"Interesting but practical approach in imparting knowledge. Approach demystifies subject and helps in understanding the practical uses of risk management."
- **TOTAL CPFA**

"Very inspiring and quite insightful, Sterling Bank has since found the Moremi Session to be of immense practical help to our business process. It has helped to create a close-knit/communal approach to risk management among staff in our organization."
- **Sterling Bank Plc**

"The training session provided by Conrad Clark in Relation to Risk Management was both informative and engaging. The trainers adopted different methods to ensure that the key learning objectives were achieved."
- **D Young & Co, UK**

"We found the approach, methodology and workshop sessions provided by your (CCN) team to be very informative, innovative and intellectually engaging. We were pleased that all key deliverables laid out in the project scope were achieved in good time and that your team acted with professionalism."
- **Continental Reinsurance Plc.**

"The programme and its delivery was very good. Great insights were provided on several aspects of Enterprise Risk Management. The practical demonstration of risk concepts was helpful." - **Ikeja Electric**

"The Conrad Clark team have provided on numerous occasions first-class training to staff members from different units and country locations of our organization from scientists, project managers, program administrators, security, supply chain to mention a few. The many workshops facilitated by Conrad Clark at IITA have been very versatile in tailoring the workshops to the needs of the participants."
IITA Risk Management Committee

"Following the successful conclusion of the Enterprise Risk Management Project for UBA Pensions Custodian Ltd., the Management wishes to commend you on your high level of competence and excellent service delivery."
- **UBA Pensions Custodian Limited**

Our Services and Solutions

Our simple commitment “to help organisations and businesses create value and succeed in whatever they do” is the driving force propelling us to design all the solutions, services and products we offer. You are assured of excellent service delivery when you request for any of our offerings.

Our offerings cover;

- Consulting and Assurance Solutions
- Training and Certifications
- Seminars, Conferences and Thought-Leaderships
- Systems and Software

Consulting & Assurance

Enterprise Risk Management Implementation and Consulting

This solution is for those who need help in ensuring they can deliver what they set out do or get as close as possible to their goals. Every organisation has a vision, mission and deliverables (short, medium-and long-term objectives).

The challenge is always the ability to follow through amidst uncertain, volatile, complex and ambiguous circumstances. In order to respond effectively, organizations need an integrated view on how to identify and manage their risks as they may affect their goals. ERM gives organizations a wide view of the risks and its treatment plans as well as how they interconnect. It has tools, templates and communication capabilities that can be applied to help achieve the objectives of various organizations.

Our approach gives the Board, Management team and all staff the ability to take on opportunities and inspire creativity for the achievement of organizational objectives, while providing reasonable assurance to shareholders and investors.

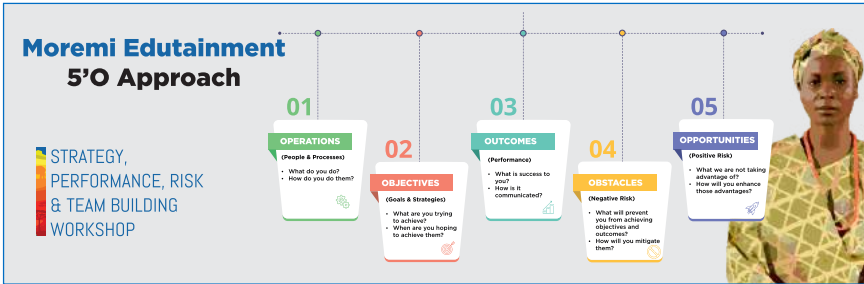

With our ERM implementation solution, you get a 3-month complimentary post-implementation support and 1-month complimentary risk software (ConradRP) set-up, integration, and usage.

Risk Maturity Audit

A successful organization deals with risk most effectively, optimizing competitive benefits while minimizing threats and maximizing opportunities. To remain relevant or competitive, organizations need to know whether their risk governance approach is adequate, comparing their management of risk with best practice.

The aim of our risk maturity audit service is to assess the current risk governance approach of organizations to determine areas of strength for consolidation and areas that require attention. The risk governance audit will, therefore, provide a structured route to excellence in enterprise risk management, by defining the current position and providing clearly defined improvement targets.

This is an innovative and interactive solution that employs classical African folklore (performed by professional actors and actresses), to skillfully teach the core principles of strategic management, governance, risk, leadership, culture, reward, and performance management. It provides a practical storytelling and interactive role play application of Strategy, Risk, Reward and Performance Management and explores the challenges of embedding good risk planning and other management practices into the culture of any organisation.

Moremi Edutainment uses the 5'O approach in managing obstacles and opportunities that will affect the outcomes of a set of objectives while running your operation using storytelling.
